Diatom Means  
Responsible, Precise  
& Team Work

Riga, Latvia

**RE: Diatom Enterprises**  
Letter of Recommendation

To Whom It May Concern:

When I joined System Integration, a division of FMS, Diatom Enterprises was already participating in one of our projects as a sub-contractor.

After evaluating all of our suppliers and their performances, I was positively surprised about the responsible attitudes, precise observations regarding our specifications, and the orientation of teamwork from Diatom Enterprises' professionals. I was also impressed by their ability to react quickly. Sometimes we needed to attract additional human resources to our project, and their flexibility when changes had to be made on short notice.

We endorse Diatom for their reliability and look forward to inviting them as partners to our future projects.

Sincerely,

Aleksis Orlovs

Head of Systems Integration
